24 November 2025

To whom this may concern,

This is to confirm that Keegan Crasto achieved the **Gold CREST Award** for the project GO-0000013456, titled '**Low-Cost AI-Powered Retinal Device for Early Detection of 45 Diseases**' on 22 November 2025.

This letter is being issued while the certificate is still in transit.

Huge congratulations on your achievement! The British Science Association wishes you every success in your future science education.

Warm regards,

Ruth Mackay
Education Project Officer
